

## The Big One That Bit Off More Than He Could Chew!

I hooked a huge fish with two witnesses. He fought me good and spooled me a couple hundred feet. He leaped out of the air at the rapids and one of the two witnesses in a passing rowboat yelled, "Jesus! That's the biggest dam fish I've ever seen!" Just after the fish hit the rapids downstream, my pole snapped in two, along with my line. I had 6 lb. test line! This all happened right here on ~~Three~~<sup>Rivers</sup> ranch. This fish got more than he bargained for. He got a lure, 100 feet of line, & he broke a pole! Good luck finding that monster! He is a lot of fun to fight.
